EMPLOYMENT

Software Developer **Webito Software Informatics Industry Trade Ltd.** **Jul 2024 -Present**
Istanbul, Turkey
- I do my university summer internship here. I develop website, mobile app in this company by using HTML,CSS,PHP and Kotlin. Also I had experience to design database and manage it.

Android Developer **Sporyap(Startup)** **Mar 2024 – Jul 2024**
Istanbul, Turkey(Remote)
- In this exciting startup project covering 81 different sports branches in the sport industry. I played a developer role in the development of the **Android application**. In the tasks I have undertaken so far, I have achieved the following:
• **User-Friendly Design:** I contributed the process of designing and optimizing the interface of the Sporyap Android app. I implemented various design guidelines to ensure users have a comfortable and interactive experience within the application.
• **Performance Optimizations:** I developed strategies to enhance the app's performance, enabling quick and smooth tracking of sports activities.
• **API Integrations:** I worked on integrating information from diverse sports data sources, providing users with up-to-date and accurate sports data.

Software Developer, Intern **Webito Software Informatics Industry Trade Ltd.** **June 2023- Sep 2023**
Istanbul, Turkey
I completed my university summer internship here and after my university internship, I contributed to this company in the fields of development, website software and design in this company. I worked until my education started. I have used **HTML,CSS,PHP** and **Java** as working here.

Office Clerk **KIL-SAN Kil Sanayi ve Ticaret A.Ş.** **July 2022-Sep 2022**
June 2021-Sep 2021
- I was responsible for paperwork in the accounting department. I also helped the company's IT department when I have free time. I have learnt how to manage IT systems, machines and database.
